Introduction to Sustainability: Integrating Theory, Practice and Social Responsibility **July 18-22, 2012**

Immerse yourself at farm school and refresh your instruction in Environmental Learning!

A five-day hands-on professional development workshop at Quillisascut Farm™ for college faculty and administrators involved in developing sustainability curriculum. Learn how to connect your institution to the ecological and cultural wisdom embodied in your local community.

Participants will:

- Explore Systems Thinking by discussing and participating in the patterns that connect all of life's operating systems
- Exchange ideas with fellow faculty working to include sustainability studies in course curriculum and program development
- Discuss the "Big Ideas" of sustainability
- Practice sustainability ethics
- Develop hands-on skills in farm production including milking goats, making cheese, helping care for farm animals, transplanting vegetables, harvesting produce from the gardens and more
- Experience the significance of regional biodiversity, soil food webs, and the socioeconomic food web
- Become engaged as civic eaters

Participants stay at the farm with bunkhouse-style lodging and all meals provided. \$695 Tuition includes course materials, instruction, food and lodging. (transportation not included) College faculty will receive \$350 discounts on tuition.

Please join us for this fun and rewarding professional development workshop. Limited to 12 participants, Application deadline May 5, 2012

"Civilization has been slow to give up on our myth of the Earth's infinite generosity"
Barbara Kingsolver

Tuition enclosed (checks made out to Quillisascut Farm) or Pay on-line

Name _____

Mailing Address _____ City _____ State _____ Zip _____

Phone Number _____ Email Address _____

Name of College:

Position:

Number of students in Education program

What courses do you currently teach or are being developed that could involve sustainability?

What new learning do you hope to achieve and how will you put it to use in your current position?

Tell us about your present work (curriculum) that is aligned with sustainability based education?

What special interests do you have related to our environment or BIG IDEAS of sustainability? Each participant will be asked to share his or her area of expertise with the group during the workshop.

How do you see sustainability integrating with your academic programming?

Omnivore Vegetarian

* Meals are served family style and prepared from our own farm-raised products (goat products: milk, cheese and meat,

poultry, eggs and garden produce). We are not equipped to handle a wide range of dietary preferences.
